(c) whether this will affect the working of cable operators?

THE MINISTER OF STATE OF THE MINISTRY OF INFORMATION AND BROADCASTING AND THE MINISTER OF STATE OF THE DEPARTMENT OF DISINVESTMENT (SHRI ARUN JAITLEY) : (a) and (b) Some private TV channels are encrypted when the signal is transmitted from the satellite. Therefore, cable operators need to use a decoder for providing a normally viewable signal to the user homes. These private TV pay channels charge a specified sum for accessing their programmes. Doordarshan does not have any pay channel. The subscription or fee charged by private TV pay channels from cable operators is a matter between private parties and Government is not involved in the transaction.

(c) Cable network in the country is continuing to grow at a fast pace. So far there is no visible adverse effect of the mechanism of private TV pay channels on the functioning or expansion of cable networks.
